Kellogg Fishing Club Sheet Tournament App Instructions

Updated Format Changes: = no identifier number needed and no pictures of score sheet.

Please read the following carefully to ensure you fully understand the process going forward

All sheet tournaments going forward will be judged off the paper weigh sheets at weigh-in as we have done in the past. During your fishing day each angler should enter his or her fish catches on their paper score sheet with your boat partner verifying your fish lengths as we have always done. Each angler must also take pictures of the fish he or she plan to submit for your final limit in the bass tournament while meeting the criterias set forth below.

Each angler will have 48 hours after the conclusion of each tournament to get their fish photos entered into the app. Fish photos will be used as verification in the event any questions arise. Failure to enter your fish photos may result in a loss of points and place for that tournament.

Any angler fishing alone must enter his or her fish pictures before the 3:30 PM weigh-in deadline so they can be judged prior to the award presentation.

Criteria for Photos for fish verification

- **Measuring Device:** Must be a rigid, commercially made board with ¼ inch markings; no tape measures or foldable devices. (Hawg Trough is the official KFC measuring board)
- **Position:** Fish must be placed on its side, head facing, and against the measuring board backstop. (fence)
- **Head/Mouth:** Head against the backstop, mouth **must** be closed
- **Tail:** Contestants may pinch the tail of the fish to achieve maximum length as long as the tail and head are clearly visible.
- **Visibility:** The entire fish and measuring board markings must be clearly visible in the photo; no hands covering the head or tail. Best hand position is the middle of the fish with one hand.
- **Scoring:** Round up to the nearest 1/4. Example: if the fish tail touched the 14" line on the measuring board it is a 14.25" fish. Fish lengths to be entered in decimals. (.0, .25, .50, .75)

If these criterias are not met on each photo submitted they are subject to be denied.

Directions for entering fish photos in the KFC weigh app:
Upon opening the link you will be asked to input the the following information in this order.

1. Your Name
2. Upload picture of fish #1
3. Upload picture of fish #2
4. Upload picture of fish #3
5. Upload picture of fish #4
6. Upload picture of fish #5
7. Submit

Update 2.9.26 KHP

This is a google based sheet and since we are downloading items to it they require you to log in with a google (gmail) based email. A lot of you have a gmail email already. If you do not have one already they are free and I will help anyone that needs to set one up if they need help. Also, you can use your partners phone to upload your info or someones phone at weigh-in.

Link to Sign up for a google (gmail) email address if you do not already have one:
